

Denials are spiraling out of control, and payors are using AI to **deny medically necessary care.**

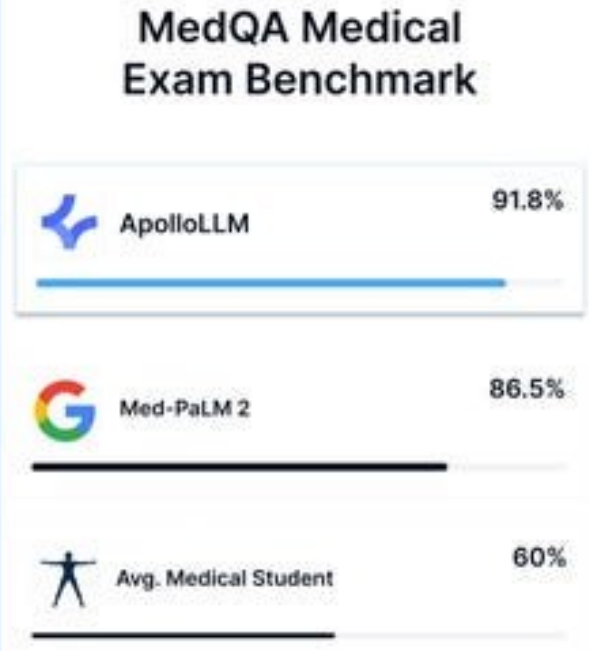

And Providers spend billions to overturn denials.*

*Premeir, inc.

Introducing Apollo by Crosby Health, the most advanced clinical LLM to date.

An entire suite of tools to automate denial appeals.

End-to-end appeals on every denial, drastically reducing the cost to collect.

High volume, low dollar claims can be handled completely with AI.

Experts can spend 100% of their time identifying the best strategies for **high dollar, low volume claims.**

And it doesn't stop there...

We've trained Apollo to automate the **billions** spent on **revenue cycle, text based tasks.**
